

1
Assemble
poles

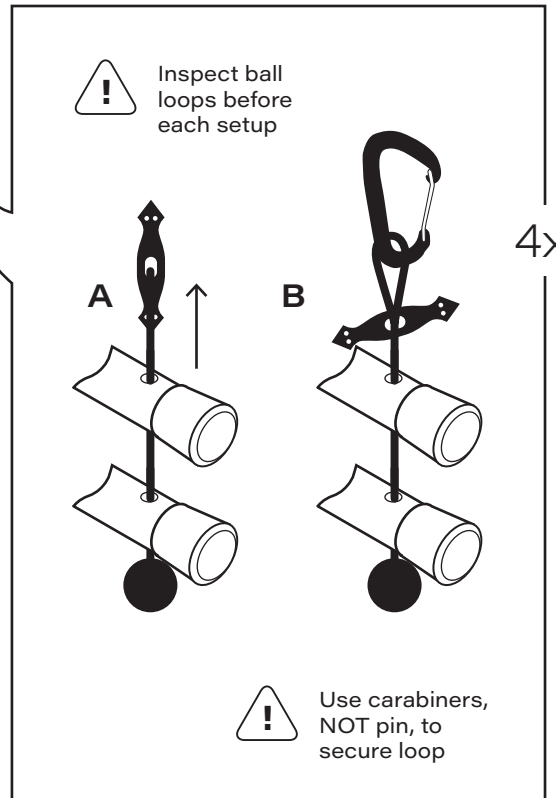

2
Connect pole ends
with ball loops
and carabiners

Connect baseline
and ridgeline

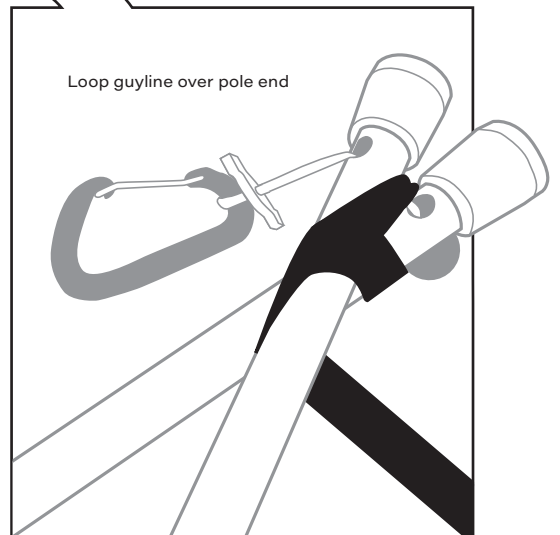

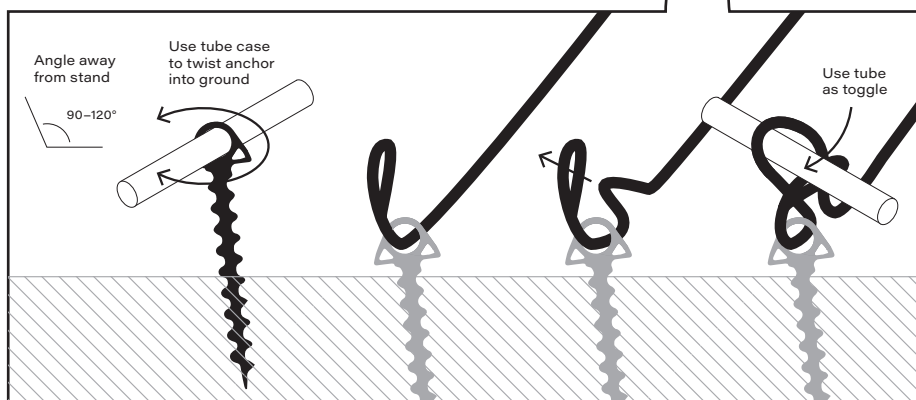

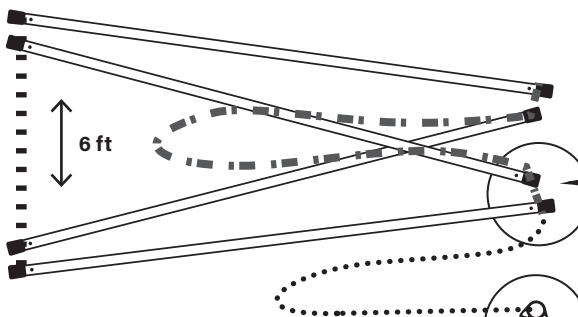

! Thread connection
so ball is outside
and carabiner is
inside pole crossing

! Inspect ball
loops before
each setup

! Use carabiners,
NOT pin, to
secure loop

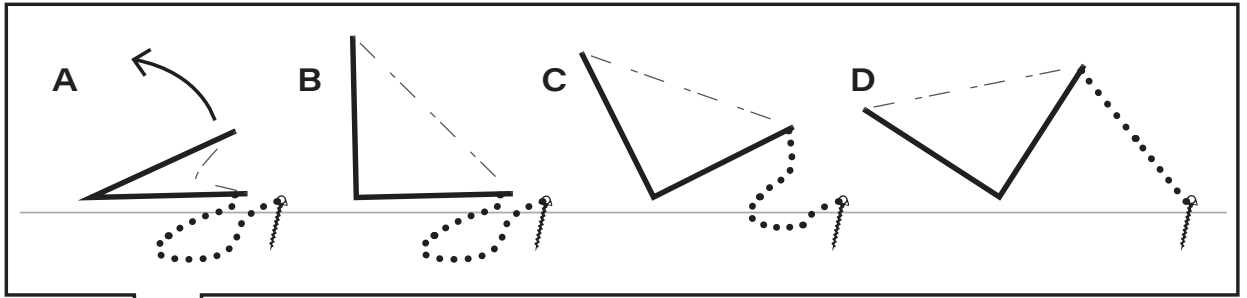

3
Spread baseline
and add
foot anchor

Loop guyline over pole end

4

Erect stand

! Head end MUST be lower than foot end

Head end

Foot end

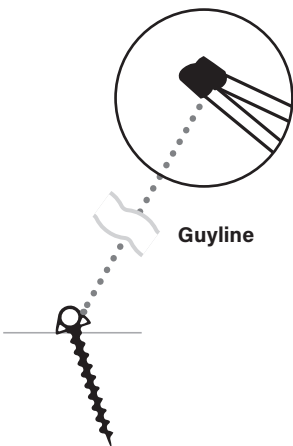

Ridgeline

Guyline

5

Add head guyline

(optional)

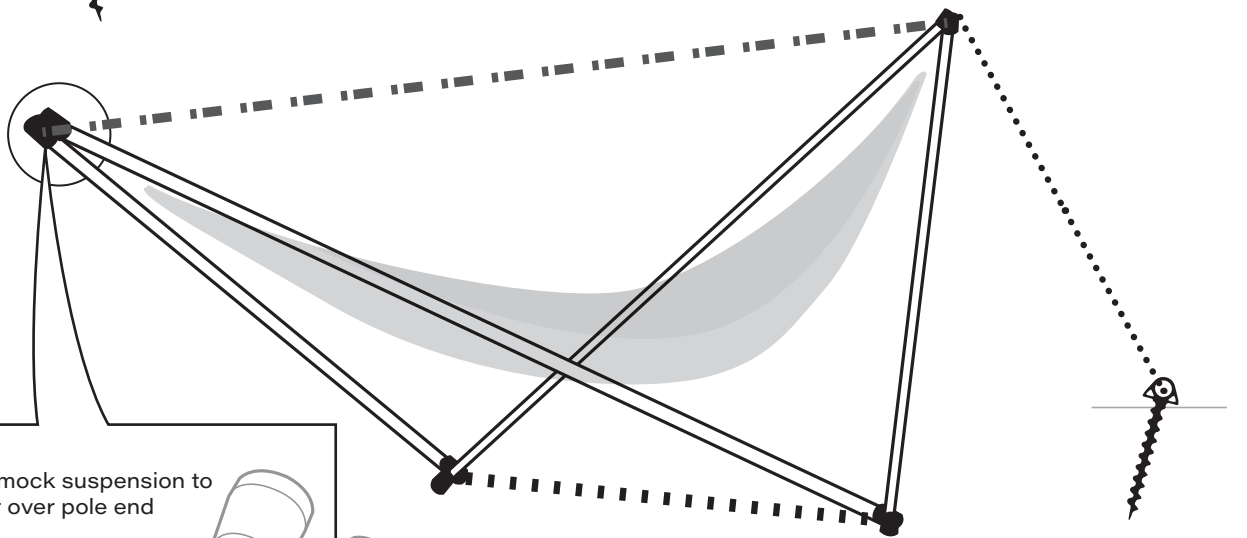

Guyline

Baseline

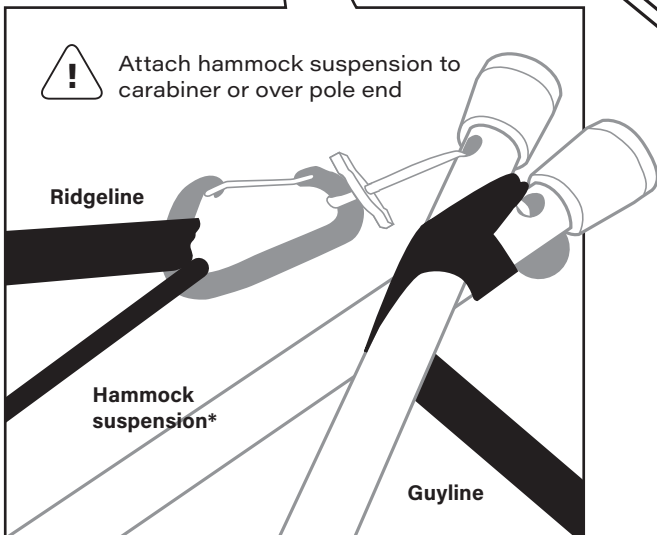

6
